

Wallpaper

This month saw International Wallpaper Week. British fashion icon Barbara Hulanicki, who founded Biba, is an ambassador for the annual event.

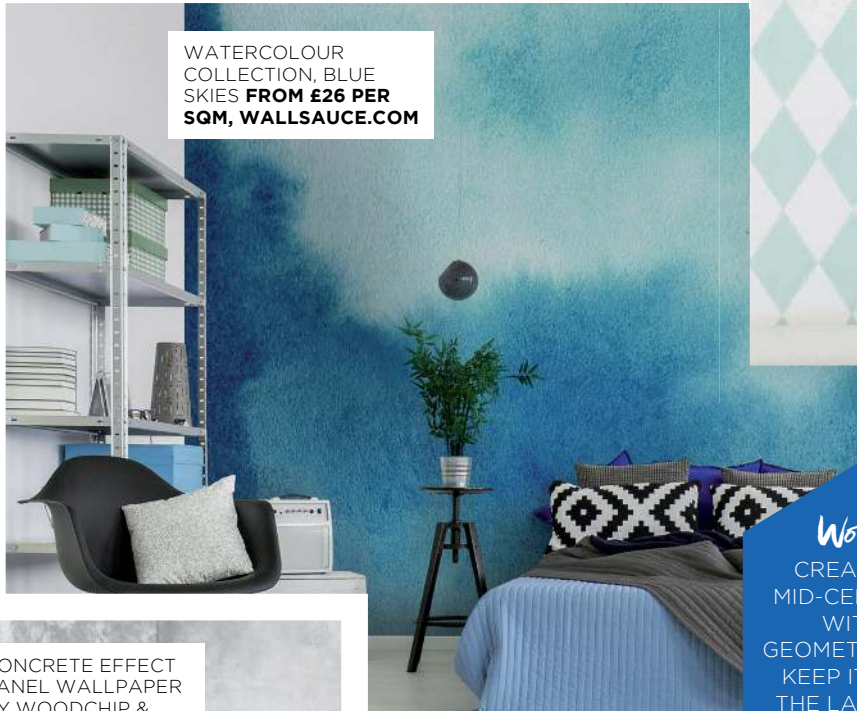

Barbara says: 'I love how wallpaper can change the look of a room. Interiors, like fashion, are an extension of your personality – whether you're cool and funky, an old romantic or you love timeless elegance; there's a wallpaper to suit your style. Wallpaper is also an incredibly simple way to quickly update your home.'
