MACHINE PRINTED WALLPAPER & BORDER SPECIFICATION.

Paper Description: Grounded, woven, natural wall covering made from pure paper pulp

Paper Thickness: 0.25mm

Application: Paste the paper

Recommended Adhesives UK:
'Solvite' powder based or 'Anaglypta' ready mix wallpaper adhesive.
\Recommended Adhesives USA: 'Sure Grip' or 'Universal Roman 880 ultra clear.

Recommended usage: Domestic & Commercial wall covering. Whilst our wallpapers are suited to most environments in kitchens & bathrooms or high traffic areas we recommend the application of a wallpaper varnish such as 'POLYVINE decorators' varnish. It is important to test before application as it may affect colours.

Care & maintenance: Our machine printed, natural wall coverings should be cleaned by dusting with a clean dry brush. Do not scrub wallpaper with abrasive materials as this could cause the print to be lifted.

Environmental:
Paper - Our Machine printed papers use wallpapers grounded by a factory in Lancashire, UK. Their paper is sourced from FSC® or PEFC™ certified forests. The factory has an established and maintained, documented 'Chain of Custody' (CoC) management system which allow's them to reliably trace FSC/PEFC product back through the supply chain to the forests where it originated.

Ink - The ink used to ground the paper are classed as water-based, which means they are non-toxic and very low in VOC's (volatile organic compounds).

Energy - The factory sources all of their electricity from renewable resources.

*** Fire Rating:** Our machine printed papers have been tested in accordance with EN13501-1:2007+A1+2009 European Fire Regulations and have a pass mark of B, s1-d0, allowing the papers to be hung anywhere within a commercial building. Our wallpapers comply with the European Product Standard EN 15102:2007+A1:2011 for wall covering products.
They are also fire certified for Australia in accordance with the building code of Australia and are Certified Class 1 deeming them suitable for commercial projects. **Copy of certificates available upon request.*

DIGITALLY PRINTED WALLPAPER SPECIFICATION.

Paper Description: Toll Coated, Non-woven wall covering.

Paper Thickness: 0.29mm

Application: Easy to install, paste the wall

Recommended Adhesives: Good quality, solvent free, fungicide protected ready-mixed 'tub' adhesive – specifically for paste the wall non-woven papers should be used. We use 'Albany' premixed paste.

Recommended usage: Domestic & Commercial wall covering.

Care & maintenance: Our digitally printed wall coverings can be cleaned by lightly sponging with a clean damp sponge. Do not scrub wallpaper with abrasive materials as this could cause the print to be lifted.

Environmental:
Paper - Made from natural fibres from FSC approved supply.

Ink - Our digitally printed wallpapers are printed using Latex Ink Technology, which are water based, environmentally kind inks. HP latex inks are free from Cadmium, Chromium, Mercury, Lead (tested to >0.2ppm) or Formaldehyde.

*__Fire Rating:__ Our digitally printed wallpaper is fire certified for Europe and USA – classified to BS EN 13501-1-1:2002 Class B, s1, d0. They are also fire certified for Australia in accordance with the building code of Australia and are Certified Class 1 deeming them suitable for commercial projects. **Copy of certificates available upon request .*
